Interior Gas Utility

Board of Directors Board Meeting
May 7, 2019 @ 4:00 P.M.
100 Cushman Street, Suite 512, Fairbanks, Alaska

Draft Minutes

A Meeting of the Board of Directors of the Interior Gas Utility was held Tuesday, May 7, 2019, in the IGU Conference Room, Fairbanks, Alaska. IGU Board Chair, Pamela Throop presiding.

Others in attendance were: Dan Britton (IGU General Manager), Zane Wilson (CSG – IGU Attorney), Laura Steel (IGU Secretary), Michelle Hollowell (FNG Customer Service/Conversion Manager), Wesley Smith (FNG Controller), Michael Newman (IGU Financial Advisor) (telephonic), Mark Rockwell (FNG Director of Operations), Bruce Robson (Stantec) (telephonic), and members of the Public; Liz Grieg (Public), Jomo Stewart (FEDC), Julie DuQuette (Slayden Plumbing & Heating General Manager), Dan Bross (KUAC Senior FM News Reporter), and Amanda Bohman (FDNM Staff Writer).

I. Call to Order @ 4:07 pm.

Roll call

Board Members Present:

Pamela Throop Steve Haagenson Patrice Lee Mary Nordale (left @ 6:05 pm) Jack Wilbur Gary Wilken (excused)

- Madam Chair would really like to follow Roberts Rules and asked everyone to please keep their comments to one, and a follow up, and then let it go around before it comes back to them. She asked everyone to try to stay on topic, and not to engage in crosstalk to each other or Zane.
- Approval of Agenda, Consent Agenda, & Minutes
 - o Removed 4/23/2019 Minutes from Consent Agenda.
 - o Removed IGU Attorney Report from Consent Agenda.
 - Amended 4/23/2019 Minutes on Page 6 of the Packet to include the answer to Director Wilbur's question if the first to request are the first to receive natural gas. The answer from Dan was that's been his view as the only real fair way to do it.

Agenda, Consent Agenda, & Minutes were approved.

Public Comment – None.

II. New Business

- Public Relations and Marketing Services
 - o Discussion led by Michelle Hollowell.
 - o Four companies had applied. The evaluation team was Michelle, Laura Steel, and Wesley Smith. Porcaro is who we recommend. Discussed the company.
 - Work Order One is a lump sum amount and will cover up to the website creation. Work Order Two is a time and expense amount, not to exceed, and will include the website. Michelle clarified they are both lump sum amounts not to exceed the \$24,000.00 total, which was approved in the 2019 FY budget.
 - Handout of financials for Work Order Two for the website, including training for Michelle and Laura.
 - o Discussed website design timeframe and establishing branding and the direction the utility wants to go as the driving force towards the website design.

Moved by Vice Chair Haagenson to approve the contract with Porcaro Communications for Professional services related to the public relations and marketing in a not to exceed amount of \$24,000.00 and provide signatory authorization to the General Manager to execute task orders, Seconded by Director Lee.

Roll call vote: Motion passed unanimously.

- Short-term Bank and FNSB Loans
 - o Discussion led by Dan.
 - Director Lee commented on past experiences.
 - O Dan addressed her comments; we are not out of money...we are within our Finance Agreement and capital plan. Discussed that this is the anticipated method which these were to be financed and has been the plan since the IGU Board adopted the Proforma and Capital Plan in May 2018. Project does not move forward unless there is an approved budget.
 - o Follow up asked when the IGU board was supposed to know about the Ordinance in detail? Answer: Dan included in Q1 Report to the Assembly and copied to the Board. Though he did not make specific reference to an ordinance, he described that Mayor Ward felt the original \$7.5MM had changed enough to go back to Assembly. He did not bring a specific Ordinance number back to the IGU Board.
 - Director Wilbur was not surprised it went before the Assembly, Dan had advised it would go before the Assembly and it did.
 - Director Nordale asked about moving forward on North Pole storage capacity.
 - Dan answered that we are looking at reducing costs for NP Storage, canceled bids, eliminating part of the scope (500,000-1MM reduction in costs), and looking at other ways to reduce the costs.
 - O Vice Chair Haagenson agrees with Dan, this was discussed over the past few meetings, we have seen financial plan and details including timing. What is the status of the AIDEA approval of this debt?

- Answer: Dan says both he and Wes have asked for authorization from AIDEA.
 Updated letter last week to clarify subordinating the SETS loans to short term loans. Discussed repayment of loan issue and Bonds used for repayment. AIDEA wanted to see debt policy in place before moving forward. This is on tonight's Agenda.
- o Director Lee asks if AIDEA determined IGU was an investment grade utility.
- O AIDEA is not the deciding factor, that is the bond markets. We have a Financial Advisor. We have upcoming meeting this week regarding credit rating among other things. We are an existing utility with customers and revenue. Subordination with SETS loans allows the footing for investment grade rating. All feel it is likely when we put forth our offer in the Bond market.
- Director Nordale asks if the cancellation of bids in NP tank and moving of smaller tanks to NP give IGU opportunity to start laying delivery lines in NP to get gas to the residents and businesses quickly, like this year or early next year? Madam Chair offered point of clarification that there are already lines there; they were done in 2015, we just need to get the gas there.
- O Director Lee asks which bonds would guarantee payback to the Borough and the bank? Dan answered that the SETS loans would be exhausted, combination of line of credit and bank loan would be repaid from proceeds of initial offering at around \$75 million. Revenue bonds issued will have the moral obligation to State of Alaska. Bond proceeds pay for scope of work IGU and AIDEA have agreed to, including: 1) expansion of liquefaction facility at Titan, 2) the storage facilities in Fairbanks and North Pole, 3) the expansion of distribution systems, and 4) the additional LNG transportation infrastructure. We are bringing a Memorandum before the Board to clarify purpose of Bond proceeds, per our FA recommendation.
- Discussion about Board members talking to others outside the Board, as we are supposed to be speaking with one voice, even if approached by others for clarification purposes.
- o Zane offers additional language for the upcoming motion on BM 2019-07.

Moved by Vice Chair Haagenson to Authorize the General Manager on behalf of the IGU to enter into the short-term financing agreements with Mt. McKinley Bank and Fairbanks North Star Borough in the amount of \$13,480,000.00 and \$7,500,000.00, respectively, for a total of \$20,980,000.00. This authorization is subject to the prior approval of the loans by AIDEA. Seconded by Director Wilbur.

Moved to Amend by Director Lee, to separate the two loan amounts and vote on them separately. Seconded by Director Nordale.

Discussion: Borough approval, existing and past lines of credit and success in paying those back, goal of keeping cost down for consumers, and overall being in the best interest of the residents of the Borough through improved air quality, economic development, and advancement of this project.

Roll Call vote on Amended Motion:

Lee Y, Nordale N, Wilbur N, Haagenson N, Throop N. Motion fails 1-4.

Roll Call vote on original Motion: Lee N, Nordale Y, Wilbur Y, Haagenson Y, Throop Y. Motion passes 4-1.

III. Unfinished Business

- Financial Policies (Debt Policy)
 - Presented Policy No. FIN003.

Moved by Director Nordale to Adopt the policies as presented. Seconded by Director Wilbur. Discussed policy, discussed agreement with AIDEA not needing to be also addressed in this policy. Roll Call vote: Motion Passed Unanimously.

IV. Reports

- General Manager
 - o Report was provided in the Board Packet. Legislative Update was attached.
 - o Three Union Negotiation sessions in April. Sessions are scheduled in May as well, and we are meeting and advancing our positions in good faith.
 - O Highlight of Report is that we issued an RFB for LNG Transportation Services. This was not bid prior or since IGU's purchase so was prudent to issue the Request. Explained what our RFB contains. Discussed picture on page 47 and explained what the pipes are in the tank and how they work, and the safety and minimal spill due to no openings at the bottom, but all piped through the top.
 - We have cancelled the bids for NP Storage. Bruce Robson is online in case of specific questions. Discussed how we can get storage on site quicker and less expensive at this time. Evaluation team for NP Facility included Keith Hanneman with PDC, David Prusak & Bruce Robson w/ Stantec, and Mark Rockwell.
 - Titan Expansion items; are there any other items? Yes, Dan explained these are just major equipment RFPs. What is Braemar's scope? They are completing their 65% Design for Titan Expansion Project. The RFPs are for equipment, we are not purchasing until final investment.
 - Legislative update. If the Bill stalls in Legislature, we believe we will lose a portion, but not all of the Storage Tax Credits; Tria Road may still be up and running on time before end of the year. North Pole would require the extension on the tax credits.

IGU Attorney

- o Been attending IBEW Negotiations and agrees with Dan's assessment, has been coming along well, is being done in good faith.
- Continuing to clean up the Ethics policy and will be bringing it back in front of the Board shortly.

- O Did forward the Bylaw Revisions on to the Borough after the Board passed that last time and Ms. Dolan assured him that she was passing that along to the presiding officer to get that introduced in front of the FNSB Assembly to obtain their concurrence in those Bylaw Revisions.
- Various miscellaneous things.
- Did a tank inspection on his own time (Tria Road LNG tank) and appreciated that opportunity.

V. Other Business

- North Pole Storage Update
 - o Confirmed we have cancelled original bids; Bruce Robson is available online.
- MAP Consulting LLC Gas Supply
 - Madam Chair received a Scope of Work/Consulting Agreement via email from Mary Ann Pease last week and forwarded it to Dan. Some of you have met her, she has worked in the industry for a long time and has made an offer, simply because she really wants to help us get gas going. Madam Chair had asked Dan what IGU spent (over \$400,000) to get no gas. Her proposal is for 3 months only, at a fee of \$5,000 per month to negotiate a gas contract for us. Resume was sent to everyone on the Board. If she negotiated gas for us, she would be paid a bonus. It would be a ten-year contract with renewals.
 - o Great opportunity for us and would free Dan up, at least for a three-month period, while we get these other things going.
 - Madam Chair would like to forward a motion that we work out a contract with Ms. Pease and give her this opportunity for this short three-month period to look for gas for us. We can put some parameters around that.
 - Zane recommends looking at sole source contract criteria first.
 - Discussion on the unlikelihood of this solicitation meeting the criteria of a sole source contract, some helpful questions if this does go to an offer. Suggested the Chair talk to MAP and ask the questions that the Board members had asked.
 - Discussed experienced team already in place and MAP not bringing any more experience than the team we already have, people have different approaches and different networks.
 - Dan stated our current gas supply contract allows 5 Million cubic feet a day, with expansion to 15 Million cubic feet a day with 18-months' notice. Price is same for entire term. A lot of these terms are attractive with our current supplier.
 - Madam Chair will review this with Zane, and review some of the stuff we were doing with Siemens as a lot of work was done then. She will write note to Mary Ann Pease and let her know we are considering this.
- Board Retreat (Strategic Planning)
 - Suggestion of starting on a Tuesday afternoon, go into a board meeting, then finish up the next day - Wednesday. Please send to Laura when you won't be available in June. Wants to do this Tuesday and Wednesday.

- Discussed the Board needing a team building session before the Board Retreat, and who will be present at this, us and facilitators and attorney if they feel they need him.
- Discussed the handout and that everything on there could be done before the Retreat, recommendation of team building before the Retreat.
- Mayor of NP has contacted Madam Chair several times and is working through a list of people as possibilities for the North Pole vacated seat. Thinks that person should be involved in the retreat. Make sure they are sworn in so they can participate. Discussed the purpose of the retreat; Madam Chair says it is both strategic planning and a board refresher. May do an outline at the Retreat for later strategic planning.
- Discussed typical way is for the GM to come up with Strategic plan and board weighs in on it.
- O Board evaluation sheet was passed out at the meeting, along with a Group Agreement to help how they interact with each other and as a team.
- Action Items List Discussed progress, actions completed, and additional actions.

VI. Closing Comments

- · General Manager
 - O PHMSA here a couple days for annual audit, focusing on distribution system. Mark is fresh back from Nashville for the American Gas Association Convention; great opportunity to network and immerse self in our industry. Asked by Vice Chair Haagenson how many in AGA have sole supply of LNG; we may be the only one as primary sole source supply.
 - We are now members of the American Public Gas Association (APGA). It is a really good fit for us, and the website has shared information that shows it is a great resource. Madam Chair asks if the rest of the Board have access to the website. Will verify and report back.
- IGU Attorney
 - o Complimented Chair and Directors on a good step in the right direction.
- Directors
 - Director Wilbur comments on the Marathon deal, he talked to Alaska Chamber a couple times and the reason for doing this is to provide LNG/Gas to their refinery and there's currently no plan to do something beyond that. Always the possibility, but certainly isn't anything we can count on as a source of gas.
 - Vice Chair Haagenson asks that they consider some of these things on the list on Board Packet Page 53 for the next few meetings; they are time-critical.
 Madam Chair asks that all will be put in order of importance and sent to them.
 - Also, GM review process was tabled and would like it back on the Agenda.
 Madam Chair says first meeting in June.
 - Also, oil was \$2.93 gallon which is \$21.30 per million btu.
 - Director Wilbur has talked to Sourdough Express and they are trying to get their fuel #1 customers set up to receive fuel #2. There will be lots of people fighting for the customers we are trying to get.
 - Madam Chair thanked everyone for a much better meeting.
- VII. Adjournment @ 6:19 p.m. Moved by Vice Chair Haagenson, Seconded by Director Lee.

Porcaro Communications did not include a cost for the design and production of the new website in the cost proposal section of our original response to the IGU RFP. This was due to a difference in interpreting what tasks were to be included in the cost proposal. For this reason, we are submitting an addendum to the cost proposal, which is our expected cost to produce a website, as described in the original proposal.

Website Production

	Mark	Mike	Kristin	Hard Costs	Total
Hourly Rate	\$125	\$125	\$105		
#Hours	6	2	80		
Totals	\$750	\$250	\$8,400	\$400	\$9,800

GROUP AGREEMENT

- If I have a concern with another team member, I will go to that person first and share my concern in a positive, timely and private manner.
- 2. I will listen to and try to understand the input from others in an open-minded way.
- 3. If I, for any reason, find it difficult to confront or work the problem out with another team member, I will invite a mutually acceptable third party to help work out a solution.
- 4. I will speak only for myself unless the other person asks me to speak for him/her.
- I will not bad-mouth the organization or my co-workers.
- If I hear information being given that I know to be untrue or misleading, I will offer what I know to be the facts to the appropriate person in the appropriate forum.
- 7. I will be an active and participating team member and I will take the responsibility to do my fair share of the work.
- 8. I will willingly help others if needed and appropriate.
- I will respect individual ideas in making organizational decisions and once a decision is reached, I will support that decision even though I may hold a different viewpoint.
- I will encourage others to provide necessary feedback to me and I will provide necessary feedback to them.
- 11. I will not infect others with my bad day.
- When I make a decision that may impact my fellow team members, I will be open to discussion and provide sound reasons for the decision and my conclusions.

Director Self-Evaluation Tool: Interior Gas Utility: Board of Directors Self/Peer Review

Instructions: After each statement, indicate to what extent each individual director exhibits that behavior on a regular and consistent basis at board meetings, including yourself. It is important to limit your responses to how the individual behaves at board meetings; not how he/she behaves elsewhere. For example, if the individual always exhibits that behavior at board meetings, write SA (for Strongly Agree) under the initials; if he/she exhibits it frequently, write A (for Agree); if he/she exhibits it rarely, write D (for Disagree); and if you have never observed someone exhibiting that behavior at meetings, write SD (for Strongly Disagree). If you are not sure, write N. Keep in mind that disagreement (D or SD) should not be viewed as negative, since no individual or group is expected to exhibit every behavior on the list. Your answers will be kept completely confidential.

Interior Gas Utility

Board of Directors Work Session May 21, 2019 @ 4:00 P.M. 100 Cushman Street, Suite 512, Fairbanks, Alaska

DRAFT Minutes

A Work Session of the Board of Directors of the Interior Gas Utility was held Tuesday, May 21, 2019, at 100 Cushman Street, Suite 512, Fairbanks, Alaska. IGU Board Vice Chair Steve Haagenson, presiding.

Others in attendance were: Dan Britton (IGU General Manager), Rene Wilson (CSG – IGU Attorney), Brown Thornton (NewGen, telephonic), Laura Steel (IGU Secretary), Wes Smith (FNG Controller), Mark Rockwell (FNG Director of Operations) and Members of the Public: Jim Sackett (Office of the Governor), Mike Miller (Board Member Elect), Mike Welch (Mayor of North Pole), Jomo Stewart (FEDC), Evan Wilken (FEDC) & Liz Greig.

I. Call to Order @ 4:03 P.M.

Roll Call

Board Members:
Vice Chair Steve Haagenson
Director Patrice Lee
Director Mary Nordale
Director Jack Wilbur
Director Gary Wilken
Chair Pamela Throop (telephonic)

Approval of Agenda

Motion by Director Wilken to approve Agenda, seconded by Director Nordale, Motion carried.

- Public Comments limited to three minutes
 - o Mayor Michael Welch, North Pole

He is happy to present Michael Wright Miller, his choice for the IGU Board. He hopes the IGU Board will treat him better than the first day he was there, sincerely; when he walked in the room he saw who he thought was the Chair and they gestured for him to sit at the table; he didn't mean to offend anyone. He didn't take this lightly. His community is striving as hard as it can right now to get affordable energy to its town. It's on the verge of a great expansion and he has a hard time selling his community to different big businesses who say the numbers don't pencil out. What they are talking about is what it cost to energize that store. In talking to members that represent his community, they don't feel the Board is doing all they can and should. That's why votes aren't coming out in the \$7.5 million credit so he can have the storage facility in his community. Current legislature thinks it's somewhat of a lost cause. His city has lost confidence. All the lines that were put in and front lawns were disrupted; they were told this was coming. He knows it's difficult to determine the logistics of both the 5.25 million gallon tank built and the City of North Pole to have its 150,000 gallon build. For a delay in that, there is a problem. You aren't just finding that the Legislature isn't backing you, you are finding that the FNSB is in the same boat. He asks the Board to look into themselves and ask if they are going to cooperate together and do something about it. He is bringing Mike Miller to the Board to help bring the Directors together and hopefully prove the naysayers

wrong. The lack of natural gas is why no one wants to bring box stores to his town. There will be times he will come to the meetings and stay in touch with his appointee. He offers anything he can do to help. He found the messages and lists of contributors for him to have them put pressure on their legislators reprehensible and disgusting. That is not how he operates. He would rather work with the legislature, and try to persuade them as best he can, but for whatever reason that was a bridge too far for him to get through to them. He did not prepare his comments to the Board, he is talking from his heart and hopes the Board accepts it. Thank you, and God Bless.

o Jomo Stewart, FEDC

For the record, he wanted to comment on what Mayor Welch said. Political tactics were used, and he did that purely of his own volition and not under the authority or urging of the FEDC or the IGU Board. Generally speaking, legislators are most receptive and responsive to their constituents. The bill had been stalled in committee for over a month and there was little time left in the session so he energized those with highest likelihood of success. He was wanting to make rates as low as humanly possible for their constituents.

o Vice Chair Haagenson

Michael W. Miller, new board member, is here and needs to get with IGU Attorney to make sure he is properly seated and sworn in. Discussed anyone from the public can sit at the table in a Work Session and participate. Rene stated she was not aware of this, Vice Chair Haagenson says it has always been that way.

o Mike Miller, Director-elect

Mike was born in Fairbanks, his parents arrived here in 1949. He believes there has to be work here to sustain the future generations. He is a consumer of Natural Gas at his home in Doyon Estates and he loves it. Anything he can do to help bring this group together and grow and have clean, affordable energy. Resume provided.

II. New Business (Board Discussion)

- Updated Financial Forecast and Pro Forma
 - o Dan introduces Brown Thornton and Wes Smith.
 - o IGU Board adopted 20-year Plan in 2018. There have been some changes since. We have updated numbers. This is a first run-through.
 - Wes provides brief introduction.
 - o Brown discusses when our two options (Appropriations and SETS) to finance are depleted, we go into the bonds. It takes a lot of movement on the Capital side to move the needle at the rate level. Overall plan is still in the narrow bandwidth of the original plan. Two scenarios are 1) current gas costs and likelihood of conversion at 35% of the potential residential customers converting in a 10-12 year timeframe. 2) If able to get gas at a much cheaper rate (\$6.00 instead of \$8.50) there is higher rate of conversion and are looking at 50% of potential customers converting. The key to getting rates low is volume. Fixed costs are spread over volume. More conversions mean lower rates.
 - Discussed comparisons of two scenarios, base case (most likely) and lower gas cost case, AIDEA analysis, real versus nominal dollars, price of gas paid currently and comparisons to what others in Cook Inlet may be paying based on similar utility contracts, and upcoming replacement gas supply when current contract ends.
 - Discussed debt service payment after three years of capitalizing interest, Pro Forma will be updated annually as we replace numbers with actual costs, importance of meeting the base cost based on 35% conversion in the Pro Forma, efficiency of a boiler running on natural gas instead of heating by oil or other sources, and 7% of our demand today is from residential customers.

- Discussed who is expected to convert and who the percentages in the Pro Forma were based on, this is a 20-year plan for a 100-year infrastructure, we have a 15-year deferral on SETS loan and another 5-year deferral if needed due to the demand not meeting our expectations.
- Phase II & III in the Pro Forma address the build out for other zones in North Pole and Fairbanks (see page 23).
- Customers with pipes in front of their homes are around 70%. Fairbanks has the highest density. Rate curves in the Pro Forma are total revenue divided by total demand. Customer charge is about \$12.00. We will be building cash over the years, that will be available for continued investment. We are establishing rates that allow for building reserves and showing we are investment grade.
- This Pro Forma will be brought back to the Board for adoption.
- Brown signs off at 5:34 P.M.
- Fiscal Year 2020 Draft Budget
 - o Dan presents budget and gives a big Thank You to Wes for the work he has been doing on this. He will be recommending approving this FY20 budget.
 - We are projecting \$860,000 EBITDA. We are a non-tax paying entity. Operating loss is a book loss as a result of depreciation and not a cash loss. Decrease in cash due to building our LNG inventory. We are not proposing a rate increase at this time. We are running tight for our ongoing work and will be monitoring projections closely and there may be a chance we come back for a rate change. We have a fiduciary responsibility to set rates to cover our debt.
 - o Reminder that we do not have to go any further with this budget as far as going before the RCA. We do provide it to the Assembly per the Ordinance.
 - We don't have specific changes in regards to negotiations with IBEW, but we do have an across the board 3% allowance for COLA. Nothing specifically to that group of employees beyond that.
 - Page 2-We are going to continue to build inventory. Completion of FNG storage facility and starting of North Pole and completion of Titan and new customer additions. Shows net operating income. We will be expending cash on inventory. Sources and Uses of funds. We have to start inventorying our materials (meters, valves, risers) and will be purchasing those goods.
 - O Discussed funds used for North Pole land purchase. Dan says we would pay GVEA for the land. It's a 10-year note at 5% interest and a 10% deposit.
 - o Page 3-Chairman asks if we looked at list of improvements; CHI report was provided to Mark Rockwell for review and prioritization if he recommends any of those activities.
 - Page 4- Suggestion to put "new construction assistance" under #4 Policy Foundation. We are expecting to add 400 new customers (residential and commercial), this matches the Capital Pro Forma. It is for FY20 that we will be buying materials this year for installation within the next year.
 - Outility will do the installation (either ourselves or contracted work) from the main line to the meter located at the home or business. New customers pay: \$50 for new service application fee and includes up to 100 feet and over 100 feet they pay a surcharge per foot; PHMSA requires an excess flow valve and that added a \$175 cost to cover this; the Legislature did authorize on bill financing but we need to institute a plan for it; and we have monthly payment plans so bills aren't as high in the winter. Discussed money available to customers who want to switch (wood to gas is highest priority), which significantly offsets the cost.

- Dan reminded the Board we will be moving in the direction of developing our brand messaging and image and the board will be involved. Building tools of benefits. Once people switch to gas it will speak for itself and we will build on that message.
- o Page 5 shows rates. Schools will now be on a full year.
- Also included a census where we hire a group to compare our wages to support decisions regarding our pay scales. This is included in the budget.
 Director Nordale asks if CPI is generally applicable just to wages and salary or other expenses. Dan says no, 3% budget adjustment just looking at wages/salaries. Employees aren't subject to FNSB plans. We have a 401K that the company matches. Once wage analysis is done we will look to board to set goals in our pay scales. Total study was \$18,500. Regarding the suggestion of going to Enstar; their wages are sealed through the Union. They are quite a bit different than us, we are a growing utility. Dan likes the idea of an independent evaluation, including Dan's salary, which the Board was interested in.
- This budget will be presented at the June 4th Board of Directors meeting. Finance Committee did receive details.

III. Other Business (Board Discussion)

- Board Retreat
 - o 8:30-3:30 on June 5th and 8:30-1:30 June 6th. Each Director will be contacted prior to the Retreat to discuss what they would like to address in the retreat.
 - Madam Chair states that Jim Williams Chief of Staff from Mayor Ward's office is available
 to the Board at no cost if we need help with implementing, devising, and developing our
 strategic plan. They can share what they have done at the borough. We can invite them to
 retreat for maybe an hour or so.
 - Cost is \$7800 for the retreat.
- Action Items List
 - Reviewed list.
 - o #7-Our bill passed the house with 40 0. Senator Bishop thinks he can bring it back next year with a retroactive date, It was stuck in House Finance for 51 days, Impact on our rates is about 30-80 cents per mcf, This assumes we still get the large tank credit as long as we finish on time, we need to be in service prior to 2020 and it is our intention of still meeting this goal, the Storage Tax Credit still requires legislative funding.
 - o #22-let Laura know if you are interested in your own log-in credentials.

IV. Comments

Dan- We are an operating utility with \$15-20 million in revenues and assets exceeding \$100 million dollars, and everything we do and say has an impact on our success and everybody is watching. It is important to continue to make the advancements that we are. Will request he is available as staff for the discussion at the Assembly and not public comment so he has more than 3 minutes, and he will reach out to individual assembly members to answer questions and talk to them. Rene is talking to Borough attorney and answer questions. Working through minimizing any confusion.

Rene- spoke to borough clerk to talk to the P.O. and if there are any questions, we can answer in advance to let us know. The Borough attorney has raised issues and sent a list of questions to Rene. We need to convince her on that answer. Need a collective answer with AIDEA that we are all comfortable with. Working on response to written questions.

Dan- FNSB loan is not available until AIDEA approves it. We are expecting a written response from AIDEA. Chair asks Dan to get the Pro Forma to the Assembly. He may not want to send to Assembly the non-officially adopted one but may give the one that was adopted in May 2018.

Director Lee- she is not clear if people responding to FEED understand they may not get a project. Dan responds it is clear to potential bidders. She urges everyone to review the FNSB document that established the IGU.

Madam Chair Throop- thanks Steve for chairing, Great Job, and thanks to Wes and Dan and Brown for getting Pro Forma done. She is pleased with the way it is turning out.

Director Wilken- what a great meeting. He has 4 items and the fourth one has to do with an email he hands out.

- Regarding scheduling a news miner editorial board meeting he wants IGU to sit down with the Newsminer and talk to them and show them what we are doing. They need to hear the other side of the story, They don't have enough people to report and those people don't have the background of what we are doing.
- 2. Regarding the April 25th Assembly meeting, in his 6 years participating in this effort, that meeting was the low point. Asks Board members to listen to that on the website, it was a low point in this utilities life. We will talk about this event and try to make sure it never happens again.
- 3. Regarding board attendance at deliberative body assemblies, he wants board to be aware of any deliberative body that will discuss IGU subjects. He asks the chair to encourage all of us to be there. If Assembly invites the group, and all 7 can be in the room. We need a system in place so all 7 are there so they can communicate and know who we are. He asks for that system to be set up and made into a working policy.
- 4. (Read into the record.) Written document attached.

Dan-spoke to Chair about Work Session on June 18th and requested that be moved to June 25th. Chair was ok with that. It's a personal reason and he wants time off that week for out of town visitors. Director Wilbur will not be in town at either time.

Vice Chair Haagenson- Starts with the Mayors statement about 12 cent power and how it impacts us; not sure it does, 12 cent power on the Slope is equivalent to \$35.00 mcf so its not really competitive. The bigger deal is you can't use it for heat. That's not going to preclude us from existing at all, zero impact on us. Last meeting we had a discussion on who gets the gas first and it was first come - first serve. You may want to consider the ones building the new houses first and hook them up instead of telling them sorry, you are at the end of the list. Also people on propane today already have a gas boiler. Might want to reconsider the list. Welcome to our new director. Good to have you here. We had a good message tonight, been trying to get to this point for 10 years. Regarding getting things on the Agenda there was a list of 6 things he was asked to prioritize, he gave the list to Dan and wants Dan to decide when its ready for the Agenda.

V. Adjournment

Moved to adjourn by Director Wilken, seconded by Director Nordale. Meeting adjourned at 7:15 P.M.

Michael W. Miller

DOB - August 7, 1951, Fairbanks, Alaska

Political Experience:

Leadership: Senate President (1997-1998)

Commissioner of Administration, State of Alaska (2003-2004)

Election History: City of North Pole Council (1976-1980)

Alaska State House (1982-1992) Alaska State Senate (1992-2000)

Community Activities: Original Board Member of Project 714 (STARS), Drug Intervention and Prevention Program for Secondary Schools; Past Board Member of Crisis Pregnancy Outpost for North Pole/Fairbanks area; Member, National Federation of Independent Business (NFIB).

Education: Monroe Catholic High School, Fairbanks

Attended University of Alaska, Fairbanks, 1970-1974

Occupation: President/Owner, Santa Claus House

Work History: President/CEO, SCH, Inc. 1966 - Present, North Pole, AK

Commissioner of Administration, State of Alaska (2003-2004)

Juneau

Alaska State Legislator, State of Alaska, 1982-2000, Juneau Warehouseman, Trans Alaska Pipeline, 1974-1978, Fairbanks

Military Service: Alaska Air National Guard (1971-1974)

Birth: 8/7/51; Fairbanks, AK – Life-long Alaskan

Family: Wife-Susan-married 44 years, Anniversary-12/27/74

Children – Teffonie, Son-in-Law – Phillip (5 Children) Carissa, Son-in-Law – Paul (3 Children)

Hobbies: Coin collecting, history, antiquing, family gatherings, grandchildren.

ITEMS FOR 5/21/19 MEETING

- 1) RE: SCHEDULE NEWS-MINER EDITORIAL BOARD MEETING
- 2) RE: ENCOURAGE BOARD MEMBERS TO LISTEN TO APRIL 25TH ASSEMBLY MEETING AUDIO TRACK 2 AND 3.
- 3) RE: BOARD ATTENDANCE AT DELIBERATIVE BODY ASSEMBLIES WHEN DISCUSSING IGU MATTERS.

Make it an operating policy

4) RE: RECOGNITION OF MY ERROR IN EXCEEDING THE 3 PERSON CONSTRAINT WHEN DISTRIBUTING AN EMAIL TO THE BOARD OF DIRECTORS.

"FOR THE RECORD: AT THE MAY 7TH BOARD MEETING A BOARD MEMBER
INQUIRED DURING THE MEETING AS TO WHETHER THE AIDEA PARTICIPATION IN THE IEP
COULD BE DEFINED AS A "UNSOLICITED PROPOSAL". THE QUESTION WAS NOT ANSWERED.
I FOUND THIS TO BE A GOOD QUESTION DESERVING OF A GOOD ANSWER, SO I

PROCEEDED TO WRITE THE BOARD MEMBER WHO ASKED THE QUESTION IN AN ATTEMPT TO PROVIDE SOME HISTORICAL PERSPECTIVE AS TO HOW AIDEA BECOME INVOLVED IN THE IEP. I AM DISTRIBUTING THE EMAIL FYI. I TOOK THE LIBERTY OF EXPLAINING HOW AIDEA WAS CHOSEN, BY THE LEGISLATURE IN SB 23, FROM A SHORT LIST OF TWO STATE ENTITIES BEING CONSIDERED, THE OTHER BEING THE DEPARTMENT OF TRANSPORTATION.

I SENT THE EMAIL TO THE QUESTIONER, OUR CHAIRWOMAN AND OUR VICE CHAIR THEN MADE THE MISTAKE OF NOT INCLUDING MYSELF IN THE COUNT WHICH DROVE THE DISTRIBUTION TO FOUR. IT WAS MY ERROR AND I WILL ENDEAVOR TO NOT ALLOW IT TO HAPPEN AGAIN." ******

Subject: Your question: "unsolicited proposal"

Good Morning Patrice:

Last night (Thursday) I listened to the web posting of the May 7 meeting. I write to respond to your question of Steve as to whether the AIDEA involvement in the IEP was an "unsolicited proposal".

The answer lies in the the following legislative history:

- In 2013 SB 23 became the vehicle to move the IEP (Interior Energy <u>Plan</u> soon to changed by Governor Parnell after successful passage of SB 23 to the Interior Energy <u>Project</u>) thru the legislative process.
- In the deliberation of the legislation, the question arose as to what agency was going to be the overseer of this \$335M of public money and commitment.
- The two choices making the short list were:
 - Department of Transportation and Public Facilities (DPT/PF)
 - AIDEA

AIDEA was chosen. And as one who was on the AIDEA board at the time, we were as surprised as anyone. But after the initial announcement, AIDEA management and the board took a look at the tools that would be required to move the IEP to a successful conclusion and were proudly embolden to see that we had the tools, we had the talent, and we had the resources to propel this difficult effort to a successful conclusion.

That commitment and dedication remains today as we all collaborate and look forward to our day of "first gas".

I trust this history answers your question. Please advise if I can add further.

Gary

FINANCIALS

Interior Gas Utility

Finance Committee Meeting April 30, 2019 @ 12 NOON 3408 International Street, Fairbanks, Alaska

MINUTES MARCH FINANCIALS REVIEWED

I. Call to Order @ 12:00 NOON

- a. Roll Call -Patrice Lee, Mary Nordale & David Durham (telephonic); Other: Dan Britton, Wes Smith, Zach Dameron (telephonic) & Laura Steel. Excused Doug Bishop
- b. Approval of Agenda Minutes Moved by Mary, Seconded by David.
- c. Approval of March 26, 2019 Minutes Moved by Mary, Seconded by David.

II. Monthly Financials - Profit & Loss - March 2019

- a. IGU Financial Statements and footnotes reviewed.
- b. FNG Financial Statements and footnotes reviewed.
 - Discussed increase in stolen checks nationwide and what FNG does to prevent that from happening.
 - Discussed AIDEA's involvement in IGU's acquisition of loans because IGU owes AIDEA money.
 - Heating Degree Days were lower than budgeted; therefore, our Residential revenue was \$40,646 lower than budgeted.
 - We did add some Interruptible accounts, which raised Interruptible-Small revenue \$20,761 higher than budgeted.
 - UAF revenue was \$59,615 higher than budgeted due to using gas with its new power plant.
- c. Titan Alaska Financial Statements and footnotes reviewed.
 - Discussed \$8,000 higher than budget in accounts receivable due to Talkeetna Lodge special event.
- d. AET Financial Statements and footnotes reviewed.

III. Closing Comments - Meeting Adjourned.

- a. The Finance Committee recommended that the IGU Board accept the March 2019 Financial Report as presented at their meeting.
- b. The next meeting will be May 28, 2019. David Durham will not be available on that date.

Interior Gas Utility

Finance Committee Meeting April 30, 2019 @ 12:00PM 3408 International Street, Fairbanks, Alaska To participate via teleconference, call 1-800-315-6338; when prompted, enter 47499

AGENDA

I. Call to Order

- Roll Call
- Approval of Agenda
- Approval of March 26, 2019 Minutes

II. Monthly Financials

- Statement of Net Position 3rd Quarter
- Statement of Revenues, Expenses and Changes in Net Position with Budget Comparison

III. Closing Comments

	Net cash provided by (used in) operating activities	45,827		45,827		377,980	(371,941)

(a) - Utility Plant was \$5.4M¹ under budget due to a timing difference of actual project cost and budgeted project cost. Year to date Utility Plant activity were as follows at March 31, 2019:

(\$ in thous)	Actual	Budget	Variance
Beginning Utility Plant net of accumulated depreciation, July 1, 2018	\$ 28,980	\$ 28,863	\$ 117
Capital Additions North Pole Storage Project - Land Acquisition Construction Work in Progress - North Pole Storage Project Construction Work in Progress - Phase II	- 719 2	2,171 4,028 -	(2,171) (3,308) 2
Less accumulated depreciation	(15)	(15)	
Ending Utility Plant net of accumulated depreciation, March 31, 2019	\$ 29,687	\$ 35,046	\$ (5,360)

(b) - Cash was \$223K¹ lower than budgeted largely due to no transfer of operating funds from FNG. Year to date cash activities were as follows at March 31, 2018:

(\$ in thous)	Actual		E	Budget	Va	riance
Beginning cash, July 1, 2018	\$	768	\$	986	\$	(218)
Net Increase/(Decrease) resulting from the following: Cash flows from operating activities Cash flows capital and related financing activities Cash flows from investing activities		6 230 -		378 (137) -		(372) 367 -
Ending cash, March 31, 2019	\$	1,004	\$	1,227	\$	(223) 1

(c) - Deposits and other current assets were \$35K higher than budget due to Directors and Officers liability insurance prepayment was not budgeted.

(\$ in thous)	Actual		tual Budget		Variance	
Beginning deposits and other current assets, March 1, 2019 Additions	\$	3	\$	-	\$	3
Prepaid Expenses: Insurance and operating expenses		36		-		36
Reductions						
Prepaid Expenses: Insurance and operating expenses		(4)		-		(4)
Deposits - Leased trailers & WC Insurance		-		-		-

Ending deposits and other current assets, March 31, 2019 \$ 35 \$ - \$ 35 1

- (d) Current maturities of long-term debt and GVEA Land contract were \$155K and \$1.8M, respectively, lower than budget due to no purchase of the land from GVEA. It is, however, still expected to be purchased later in the fiscal year.
- (e) Accounts payable Affiliates was \$116K higher than budget. No inter-company payables were budgeted for the year. The balance due is for the cost of Directors and Officers liability insurance and construction activities paid through FNG.
- (f) Construction payables were \$276K lower than budgeted due to a timing difference of actual construction purchases and budgeted construction purchases.
- (g) AIDEA line of credit (Construction) was \$2.9M lower than budget due to a timing difference between actual and budgeted construction activities. Loan draws have not been required as a result of the timing difference.
- (h) Administration and general expenses were \$23K under budget for March. \$17K was due to a timing difference between actual legal expenses and budgeted legal expenses and the remaining \$6K consisted of various accounts with timing differences between actual and budgeted expenses.
- (i) Other income transfer in (out) was \$59K under budget for February due to no transfer of cash from FNG was required during the period for the day to day operations of the Utility.

(a) - Utility Plant was \$3.1M¹ under budget due to a timing difference of actual project cost and budgeted project cost. Year to date Utility Plant activity were as follows at March 31, 2019:

(\$ in thous)	 Actual	 Budget	Variance
Beginning Utility Plant net of accumulated depreciation, July 1, 2018	\$ 46,860	\$ 47,236	\$ (376)
Capital Additions Budgeted Projects Construction Work in Progress - Distribution Construction Work in Progress 5.25M Storage	212 71 22,976	382 351 25,337	(170) (280) (2,361)
Current year accumulated depreciation	(620)	(625)	5
Ending Utility Plant net of accumulated depreciation, March 31, 2019	\$ 69,500	\$ 72,682	\$ (3,182)

(b) - Cash was \$669K¹ higher than budgeted largely due to a timing difference between actual loan proceeds being received and disbursed to vendor. The loan proceeds received in March were for construction activities through February 2019. Additionally, other capital projects budgeted to be financed through cash have not been completed for the year resulting in increased cash balance over budgeted cash balance. Year to date cash activities were as follows at March 31, 2019:

(\$ in thous)	 Actual	B	Budget	Va	riance
Beginning cash, March 1, 2019	\$ 3,997	\$	3,882	\$	115
Net Increase/(Decrease) resulting from the following: Net cash received (used) in operations Net cash received (used) in capital project related activities Net cash received (used) in investing activities	 (207) 825 (1)		125 (61) -		(332) 886 (1)
Ending cash, March 31, 2019	\$ 4,615	\$	3,946	\$	669 1

- (c) Investments and Accumulated deferred compensation was \$38K over budget due to the recognition of unrealized gains on the deferred compensation account. The budget makes no allowance for this adjustment as the adjustment is securities market dependent.
- (d) Accounts receivable was \$436K¹ lower than budget largely due to lower than budgeted sales. The days receivable outstanding for the month was 33 days compared to the budget of 31 days. Accounts receivable activities were as follows at March 31, 2019:

(\$ in thous)	 Actual	E	Budget	Va	riance
Beginning accounts receivable, March 1, 2019	\$ 1,991	\$	2,186	\$	(195)
Addition - Billings	1,452		1,788		(336)
Payments received on account	(1,835)		(1,931)		96
Less allowance for doubtful accounts	 (75)		(75)		

Ending accounts receivable, March 31, 2019 \$ 1,533 \$ 1,968 \$ (436) 1

- (e) Accounts receivable Affiliates was \$305K higher than budget largely due to the budget makes the assumption that prepaid insurance paid by FNG is reimbursed by the affiliated companies in the same month. The reimbursement did not happen in March.
- (f) LNG inventory was \$34K under budget due to inventory resupply lagged at the end of the month. Inventories were at satisfactory levels for the time of year.
- (g) Materials and supply inventory was \$40K under budget due to FY-18 year end adjustment that did not make it into the budgeting process. I expect this account to be under budget for the remainder of the year.
- (h) Deposits and other current assets were \$55K¹ higher than budget due to increased insurance cost and a timing difference between actual beginning balance and budgeted beginning balance. The timing difference will correct itself during future periods. Year to date deposits and other current assets activities were as follows at March 31, 2019:

(\$ in thous)	Act	:ual	Bu	ıdget	 /ar
Beginning deposits and other current assets, March 1, 2019 Additions	\$	404	\$	20	\$ 384
Prepaid Expenses: Insurance and operating expenses Reductions		138		133	5
Prepaid Expenses: Insurance and operating expenses Deposits - Leased trailers & WC Insurance		(354) -		(20)	(334)
Ending deposits and other current assets, March 31, 2019	\$	187	\$	132	\$ 55 ¹

- (i) Accrued wages & burden were \$41K over budget due to a timing difference between budgeted and actual accrued PTO. Current policy to account for PTO pay is based on hours worked during current year adjusted for total hours of PTO used in the current year.
- (j) Accounts payable was \$28K¹ under budget. The days payable outstanding for the month was 4 days compared to the budget of 31 days. The current policy for accounts payables is to pay all payables per Vendor terms. If Vendor terms are not available, we set the terms at "Net 30 days". Accounts payable activities were as follows at March 31, 2019:

(\$ in thous)	Act	ual	Budge	et	Varia	ance
Beginning accounts payable, March 1, 2019	\$	375	\$	51	\$	325
Additions Vendor purchases		146	\$	47		100

Reductions

Payments to vendors	 (502)	\$ (51)	 (452)
Ending accounts payable, March 31, 2019	\$ 19	\$ 47	\$ (28) 1

- (k) Accounts payable Affiliates was \$248K lower than budget largely due to lower gas purchases from Titan.
- (I) Construction payables were \$303K lower than budgeted due to a timing difference between actual and budgeted construction purchases.
- (m) AIDEA term loan (Construction) was \$2.6M lower than budget due to a timing difference of actual project cost and budgeted project cost and receipt of loan funds requested.
- (n) Residential revenue was \$41K¹ lower than budgeted. Heating Degree Days (HDD) were lower than budget for the month. Actual HDD was 1,120 versus 1,717 in the budget. (HDD = a measure of how much (in degrees), and for how long (in days), outside air temperature was lower than a specific "base temperature" (or "balance point")). The base temperature that is used for our calculation is 65 degrees F. The HDD used in the budget is based on a 21 year average of HDD. Actual customer count was 490 compared to 496 customers budgeted. There were 31 days in the billing cycle for March.

				F (U)
	Actual	Budget	V	/ariance
Total Mcf per mo	 4,937	6,890		(1,953)
Rate per Mcf	\$ 20.81	\$ 20.81	\$	-
Residential gas billings for March, 2019	\$ 102,731	\$ 143,376	\$	(40,646) ¹

The following schedule represents how residential revenue is derived in the budget process.

Base 1.70 Per DD 0.007 Customers 496 Total Mcf per month ((Base+(PerDD*HDD))*Customers) 6,890 Total Mcf per month 6,890			Budget

Total residential monthly revenue - gas sales \$ 143,376	Total residential monthly revenue	ue - gas sales	\$ 143,376

(o) - Small Commercial revenue was \$268K¹ lower than budgeted. Heating Degree Days (HDD) were lower than budgeted for the month. Actual HDD was 1,120 versus 1,717 in the budget. The average temperature in March 2019 and 2018 was 28.9° F and 15.4° F respectively. There were 31 days in the billing cycle for March.

		F (U)
Actual	Budget	Variance

Total Mcf per mo, adjusted for Weather Factor	33,952	46,891	(12,939)
Rate per Mcf	\$ 20.76	\$ 20.76	\$ -
Small commercial revenue	\$ 704,852	\$ 973,457	\$ (268,605)
Billing allowances	-	 -	-
Small Commercial gas sales for March, 2019	\$ 704,852	\$ 973,457	\$ (268,605)

(p) - Large Commercial revenue was \$143K¹ lower than budget. Actual customer count was 31 compared to the budget at 31 customers. Large Commercial revenue budget is not based on HDD. Large Commercial revenue budget is calculated based on historical usage data that has been accumulated for each customer.

	Actual	Budget	F (U) <u>Variance</u>	
Total Mcf gas sales Rate per Mcf Large commercial revenue Billing allowances	\$ 20.70 \$ 375,090 -	25,007 \$ 20.70 \$ 517,645	(6,887) \$ - \$ (142,555)	
Large Commercial gas sales for March, 2019	\$ 375,090	\$ 517,645	\$ (142,555) ¹	

(q) - Interruptible - Small revenue was \$21K¹ higher than budgeted. Interruptible - Small revenue budget is not based on HDD. Interruptible - Small revenue budget is calculated based on historical usage data that has been accumulated for the expected customer base.

		Actual	 Budget	F (U) <u>Variance</u>	
Total Mcf gas sales Rate per Mcf	<u>\$</u>	5,576 20.03	\$ 4,539 20.03	\$	1,037
Interruptible gas sales for March, 2019	\$	111,677	\$ 90,916	\$	20,761 1

(r) - Interruptible - Large revenue was \$30K¹ higher than budgeted due to FNSB School District now using gas as their primary heating fuel.

	Actual		<u>E</u>	Budget	F (U) <u>Variance</u>		
Total Mcf gas sales Rate per Mcf	\$	3,922 16.50	\$	2,018 17.25	\$	1,904 (0.75)	
Hospital gas sales for March, 2019	\$	64,711	\$	34,812	\$	29,899 ¹	

(s) - UAF revenue was \$60K¹ higher than budgeted due to UAF using gas with its new power plant. I do expect this to continue until UAF has completed its startup of the new plant.

Variance to Budget Footnotes March 31, 2019

		Actual	B	Budget	V	F (U) ariance
Total Mcf gas sales Rate per Mcf	_\$_	3,613 16.50	\$	- 17.25	\$	3,613 (0.75)
Hospital gas sales for March, 2019	\$	59,615	\$	-	\$	59,615 ¹

- (t) Natural gas purchases were \$224K under budget for March due to lower natural gas sales than budgeted.
- (u) Fairbanks distribution maintenance expense was \$5K under budget largely due to reallocation of expenses to other departments.
- (v) Fairbanks storage & vaporization operations expense was \$13K under budget largely due to lower gas usage for gasification than budgeted.
- (w) G&A FNG expenses were \$17K over budget largely due to various accounts being over budget. The detail expense report will cover the various accounts.
- (x) Non operating income (expense) Other income (expense) was \$11K over budget largely due to the budget did not include intercompany revenue. The intercompany revenue is derived from FNG charging IGU for labor and associated burden.

Variance to Budget Footnotes March 31, 2019

(a) - Utility Plant was \$258K¹ under budget due to a timing difference between budgeted capital addition versus actual capital additions and the budget did not account for the write off of a legacy project in June 2018. Year to date Utility Plant activity were as follows at March 31, 2019:

(\$ in thous)	Actual		Budget		Variance	
Beginning Utility Plant net of accumulated depreciation, July 1, 2018	\$	3,628	\$	3,852	\$	(224)
Capital Additions		68		105		(37)
Disposals/Retirements		-		-		-
Current year accumulated depreciation Adjustment to Accumulated Depreciation - Disposal of Assets		(271)		(273)		3 -
Ending Utility Plant net of accumulated depreciation, March 31, 2019	\$	3,426	\$	3,683	\$	(258) ¹

(b) - Cash was \$88K¹ higher than budgeted. Year to date cash activities were as follows at March 31, 2019:

(\$ in thous)	 Actual		Budget		riance
Beginning cash, March 1, 2019	\$ 2,175	\$	1,936	\$	239
Net Increase/(Decrease) resulting from the following: Net cash received (used) in operations Net cash received (used) in capital project related activities Net cash received (used) in investing activities	 (125) (51) -		(8) (17) -		(117) (34) -
Ending cash, March 31, 2019	\$ 1,999	\$	1,911	\$	88 1

- (c) Accounts receivable was \$8K higher than budget due to Talkeetna Lodge's increased gas usage.
- (d) Accounts receivable affiliates was \$231K¹ lower than budget due to lower gas sales to FNG and slow payment from AET. Accounts receivable activities were as follows at March 31, 2019:

(\$ in thous)	 Actual	Budget		Variance	
Beginning accounts receivable, March 1, 2019	\$ 1,465	\$	1,513	\$	(49)
Addition - Billings	1,103		1,354		(251)
Payments received on account	(1,395)		(1,463)		69
Less allowance for doubtful accounts					
Ending accounts receivable, March 31, 2019	\$ 1,173	\$	1,404	\$	(231) ¹

- (e) LNG inventory was \$9K over budget. The budget assumption is all gas sold in the month is purchased and inventory maintains a constant level throughout the year.
- (f) Deposits and other current assets were \$33K¹ higher than budgeted due to increase prepaid insurance and actual beginning balance being higher than budgeted beginning balance. Year to date deposits and other current assets activities were as follows at March 31, 2019:

(\$ in thous)	Actual		Budget		Variance	
Beginning deposits and other current assets, March 1, 2019 Additions	\$	15	\$	1	\$	14

Prepaid Expenses:

Variance to Budget Footnotes March 31, 2019

Insurance and operating expenses Reductions	175	155	20
Prepaid Expenses: Insurance and operating expenses	 (21)	(19)	 (2)
Ending deposits and other current assets, March 31, 2019	\$ 169	\$ 136	\$ 33 ¹

(9) - Accounts payable was \$352K¹ under budget due to a payment timing difference between actual and budgeted operating expenses. The current policy for accounts payables is to pay all payables per Vendor terms. If Vendor terms are not available, we set the terms at "Net 30 days", same as our budget. Our largest Vendor/Supplier, Hilcorp, terms are "Billings are due and payable net 15 days from date rendered." Accounts payable activities were as follows at March 31, 2019:

(\$ in thous)	 Actual	Budget		Variance	
Beginning accounts payable, March 1, 2019	\$ 1,217	\$	1,232	\$	(15)
Additions Vendor purchases	1,915	\$	1,138		777
Reductions Payments to vendors	 (2,345)	\$	(1,232)		(1,113)
Ending accounts payable, March 31, 2019	\$ 787	\$	1,138	\$	(352) 1

- (h) Accounts payable affiliates was \$175K higher than budget largely due to the budget makes the assumption that prepaid insurance billed by FNG is reimbursed in the same month billed by FNG. The reimbursement did not happen in March.
- (i) TKA Commercial Gas Revenues were \$8K over budget largely due to TKA opening the lodge earlier than expected.
- (j) Fairbanks Natural Gas, LLC revenue was \$255K¹ lower than budgeted due to decreased volumes sold. There were 31 days in the billing cycle for March.

E (II)

			1 (0)		
	Actual	Budget	Variance		
Total Mcf per mo, adjusted for Weather Factor	72,118	87,635	(15,517)		
Rate per Mcf	\$ 15.06	\$ 15.30	\$ (0.24)		
FNG, LLC revenue	\$ 1,086,096	\$ 1,340,820	\$ (254,724)		
Billing allowances					
FNG, LLC gas sales for March, 2019	\$ 1,086,096	\$ 1,340,820	\$ (254,724) ¹		

- (k) Natural gas purchases was \$116K lower than budget for March due to lower gas sales.
- (I) Trucking expenses was \$33K under budget due to fewer trips required as FNG experienced lower gas sales. The average gallons per load were 10K compared to 10K budgeted.
- (m) Electricity costs were \$35K under budget due to lower gas sales and running the Cascade system at half capacity.
- (n) Gas liquefaction expenses were \$8K under budget largely due to a timing difference between budgeted and actual expenses.
- (o) Other Income (Expenses) was \$104K over budget due to recognition of the T800 repair completed. The insurance proceeds were recognized earlier this year.

Variance to Budget Footnotes March 31, 2019

(a) - Cash was \$23K¹ lower than budgeted due to cash flows from operations being lower than budgeted as sales are down. When Titan begins to utilize the T800 the cash flows will increase. Year to date cash activities were as follows at March 31, 2019:

(\$ in thous)	Ac	tual	<u>Budget</u>		Va	riance
Beginning cash, July 1, 2018	\$	7	\$	2	\$	4
Net cash received (used) in operations		16		43		(27)
Ending cash, March 31, 2019	\$	22	\$	45	\$	(23) 1

(b) - Accounts payable - affiliates was \$26K over budget due to slow payment of inter-company invoices. I expect this to continue until sufficient funds are available.

(c) - Titan Alaska LNG, LLC gas revenues were \$8K¹ lower than budgeted due to limited trips being made by Titan's LNG tractors for deliveries to FNG.

		Actual	F	Budget	V	F (U) ariance
Total Mcf per month Rate per Mcf		529 27.02	\$	670 27.02	\$	(141) -
Titan gas billings for December, 2018	\$	14,283	\$	18,108	\$	(3,825)

Interior Gas Utility

Finance Committee Meeting May 21, 2019 @ 12 Noon 3408 International Street, Fairbanks, Alaska

MINUTES BUDGET REVIEW FY20

I. Call to Order @ 12:05 P.M.

- a. Roll Call -Patrice Lee, Mary Nordale & Doug Bishop, David Durham (telephonic); Other: Dan Britton, Wes Smith, Zach Dameron (telephonic-ended due to dropped calls @ 12:30 P.M.) Pamela Throop (telephonic) & Laura Steel.
- b. Approval of Agenda Moved by Mary, Seconded by Doug.

II. Committee Business IGU Fiscal Year 2020 Budget Review

- a. Dan presents the budget to committee today and to the board tonight in the work session. It will then be brought to the board for a vote on June 4th.
 - Discussed interest on loans and debt, and taxes (payroll only).
 - No rate increases expected, however if an increase is necessary during the budgeted year the management will bring rate increase recommendations to the board. Per the covenants of the FA, rates must cover all operational expenses, debt service and all planned operational capital projects expected to be funded through operational activities. The board will need to take action on the rate increase or be in violation of its financial covenant.
 - Discussed cost of Natural Gas, expected revenue using a 20-year average of heating degree days, and new customers in FY20 and FY21.
 - Discussed line of credit from FNSB and formal request to AIDEA for approval.
- b. Wages will include a COLA of 3% across the board.
 - There will be some wage structure changes within the Titan wage structure, defining Operators skill sets and wages.
 - We are expecting our Assistant Controller to return to Fairbanks and to full time status and wages.
- c. Discussed monitoring depreciation of assets and making adjustments, if possible, going into the future.

III. Adjournment @ 1:48 P.M.

- a. The Finance Committee recommended that the IGU Board accept the Budget and Financial Reports as presented at their meeting.
- b. The next meeting will be May 28, 2019.

AGENDA

I. Call to Order

- Roll Call
- Approval of Agenda

II. Committee Business

• IGU Fiscal Year 2020 Budget Review

III. Adjournment

- Recommendation to the Board
- Next Finance Committee meeting May 28, 2019

May 21, 2019

TO: Board Members, Interior Alaska Natural Gas Utility (IGU)

Through: Pamela Throop, Chair

FROM: Dan Britton, General Manager, Interior Alaska Natural Gas Utility (IGU)

SUBJECT: Recommended IGU Fiscal Year 2020 Budget

BACKGROUND

Fairbanks North Star Borough (FNSB) ORDINANCE NO. 2012-52 created the formation of IGU and established Title 11 Natural Gas Utility under the FNSB Code of Ordinances. Chapter 11.01.030 (E) of Title 11 directed the IGU Board of Directors to provide a separate capital and operating budget. IGU management has prepared this proposed Fiscal Year 2020 budget for IGU and its wholly owned operating gas utility company Pentex Alaska Natural Gas Company, LLC's (Pentex) and its operating units: Fairbanks Natural Gas, LLC (FNG), Titan Alaska LNG, LLC (Titan), Arctic Energy Transportation, LLC (AET), and non-operating unit Polar LNG, LLC (Polar).

RECOMMENDATIONS

The proposed Pentex budget and rates reflect projected environmental and economic conditions for Fiscal Year 2020. IGU's General Manager recommends that the Board:

1. Approve IGU's FY 20 budget from July 1, 2019 to June 30, 2020

SUMMARY AND CONCLUSIONS

The fiscal year 2020 IGU budget, based on reasonable assumptions, maintains fiscal prudence and financial capacity despite entering an expansion transitional phase. The statement of net position and statement of cash flows are included, representing the budgeted statement of revenues, expenditures and change in net position.

Key highlights of the proposed fiscal year 2020 IGU budget include:

- Roughly \$859 thousand earnings before interest, taxes, depreciation and amortization (EBITDA).
- The net operating loss of \$1.366 million is driven by the amortization of the gas plant acquisition adjustment.
- The decrease in cash is largely due to the acquisition of LNG inventory in preparation of additional demand as a result of the addition of new services during the fiscal year.
- No proposed rate increases to the customer volumetric or monthly fixed charge.

- LNG Inventory increase of 174,765 Mcf/2.1 million gallons LNG.
- \$386,590 of planned operational capital expenditures in FNG and Titan.
- \$21,496,528 of planned capital expenditures related to FNG storage facility, North Pole storage facility, Titan II and III FEED (65%), and new customer services.

The table below summarizes key projected results of the fiscal year 2020 IGU budget:

Summary FY 20 Budgeted Financial Results	<u>IGU</u>	<u>Adjustments</u>	<u>IGU</u>	<u>FNG</u>	<u>Titan</u>	<u>AET</u>	<u>Polar</u>
Net operating income	(\$1,368,717)	(\$1,356,453)	(\$401,263)	\$36,823	\$500,367	(\$147,975)	(\$216)
Netincome	(\$1,366,317)	(\$1,356,453)	(\$16,320)	(\$348,120)	\$502,767	(\$147,975)	(\$216)
EBITDA	\$859,429	(\$532,823)	(\$384,943)	\$893,220	\$898,729	(\$14,538)	(\$216)
Beginning cash	\$7,358,067		\$612,223	\$4,692,513	\$2,034,299	\$13,753	\$5,280
Net incr(decr) in cash	(\$2,302,852)		(\$231,479)	(\$2,548,352)	\$484,297	(\$7,101)	(\$216)
Ending cash	\$5,055,215		\$380,743	\$2,144,162	\$2,518,595	\$6,651	\$5,064

The table below summarizes the sources and uses of IGU's operating and capital funds:

Beginning cash	7,358,067
Sources	
Results of operations (less LNG inventory costs)	557,829
Capital financing	25,004,724
Total sources	25,562,553
<u>Uses</u>	
LNG inventory	(2,124,661)
Services inventory	(750,016)
Debt service	(232,876)
Capital projects - Operational	(386,590)
Capital projects - IEP	(24,371,263)
Total uses	(27,865,405)
Net increase (decrease) in cash	(2,302,852)
Ending cash	5,055,215

The tables below provide the estimated fiscal year 2020 capital expenditures for IGU, FNG, and Titan.

Grand Total	\$2	06,390

IEP POLICY FOUNDATION

The Fiscal Year 2020 budget is based on several policy objectives:

- Maintain existing competent and efficient operations of the FNG utility and the Titan LNG plant
- Maintain eliminated overhead, tax, regulatory, return and other costs related to private corporate ownership
- Maintain lowest rates possible to consumers while maintaining financial health of utility
- Support potential for system expansion and customer conversion when supply is available

KEY ASSUMPTIONS AND ESTIMATES

Certain key assumptions and estimates are central to the development of the IGU budget:

- Demand / Revenues
 - Weather conditions consistent with recent experience "heating degree days" based on long term averages with the expectation that this winter will be more similar to historic winters
 - Overall demand (total Mcf of gas sold/consumed) is expected to increase slightly due to increased demand from interruptible customers
 - Expected slight increase in demand from residential firm customers due to updated regression analysis on the rate class
 - Expected decrease in demand from small commercial firm customers due to updated regression analysis on the rate class
 - Expected decrease in demand from large commercial customers due to updated historical average usage model.
 - The increased demand from interruptible customers puts downward pressure on the average sales price per Mcf even though we expect a slight increase of 1.4% in large interruptible rates

Expenses

- o \$1,356,453 amortization of the gas plant acquisition adjustment
- The operation of the new storage facility in Fairbanks will increase the demand for and cost of electricity for storage site operations
- Conduct targeted capital renewal and maintenance at the Titan plant and in the FNG storage, re-gas and distribution system

Inventory

- o LNG Inventory increase of 2.1 million gallons LNG/174,765 Mcf.
- Pipes, material and supplies inventory increase of \$750 thousand In preparation of 400 new customer additions consisting of residential and commercial services located in both Fairbanks and North Pole.

FNG FISCAL YEAR 2020 RATES

FNG monthly firm customer charges and volumetric charges will not increase for Fiscal Year 2020. The table below summarizes FNG's projected rates and sales by customer class for Fiscal Year 2020.

# of	ric Charges	FY 2019	FY 2020					
Cust.	Customer Class	Sales (Mcf)	Sales (Mcf)	FY 2	2019 Rate	FY 2	.020 Rate	% Change

IGU 2020 SUMMARY BUDGET PROJECTIONS & RATE SUMMARY

The following pages include summaries of:

- IGU Fiscal Year 2020 budgeted Statement of Revenues, Expenditures and change in Net Position with prior year budget comparison – pages 6 – 7
- IGU Fiscal Year 2020 budgeted Statement of Net Position pages 8 9
- IGU Fiscal Year 2020 Statement of Cash Flows pages 10 11

Finally, on pages 12-13, is a detailed summary of the projected Fiscal Year 2020 FNG rates and IGU Capital Program & Funding Sources.

Also included as Appendix 1 is the IGU Fiscal Year 2020 budget estimates (with 2-year history*).

DECLARATION OF OFFICIAL INTENT OF THE INTERIOR ALASKA NATURAL GAS UTILITY TO REIMBURSE CERTAIN EXPENDITURES FROM PROCEEDS OF INDEBTEDNESS

9 10 11

- WHEREAS, The Interior Alaska Natural Gas Utility (the "IGU") intends to provide for the (a)
- construction of a natural gas storage facility in North Pole, (b) installation of customer gas meters in 12
- 13 North Pole and Fairbanks, (c) the expansion of the liquefaction facility at Point MacKenzie, and (d)
- expansion of the natural gas distribution system in North Pole and Fairbanks, including funding a 14
- debt service reserve fund and funding costs of issuance in an amount not to exceed \$90,000,000 (the 15
- 16 "Project"); and
- 17 WHEREAS, the IGU expects to pay certain expenditures (the "Reimbursement Expenditures") in
- connection with the Project prior to the issuance of indebtedness for the purpose of financing costs 18
- associated with the Project on a long-term basis; and 19
- 20 WHEREAS, the IGU reasonably expects that debt obligations in an amount not to exceed
- 21 \$90,000,000 will be issued with respect to financing of the Project and that certain of the proceeds of
- such debt obligations will be used to reimburse the Reimbursement Expenditures; and 22
- 23 WHEREAS, the IGU desires to comply with the requirements of Treasury Regulation 1.150-2 (the
- "Regulations") with respect to the Project; 24
- NOW, THEREFORE, BE IT RESOLVED that the IGU declares: 25
- 26 Section 1. The IGU finds and determines that the foregoing recitals are true and correct.
- 27 Section 2. This declaration is made solely for purposes of establishing compliance with the
- requirements of Section 1.150-2 of the Treasury Regulations. This declaration does 28
- 29 not bind the IGU to make any expenditure, incur any indebtedness, or proceed with
- 30 the Project.
- 31 Section 3. The IGU hereby declares its official intent to use proceeds of indebtedness to
- reimburse itself for Reimbursement Expenditures. 32
- 33 Section 4. This declaration shall take effect from and after its adoption.
- 34 Approved:

INVESTIGATE GAS UPILIPY

Interior Gas Utility BOARD MEMORANDUM No. 2019-09

Meeting Dat	e: June 4, 201	9
Approved:		

From: General Manager, IGU

Subject: Authorization to exec

Authorization to execute Three-Year LNG Transportation Services Agreement with

Big State Logistics, Inc. (\$7.5M)

Titan Alaska LNG, LLC intends to enter into a three-year term agreement with Big State Logistics, Inc (BSL). for transportation of LNG. The term agreement will begin July 1, 2019 and continue through June 30, 2022, with automatic renewals thereafter for successive one-year periods unless terminated in writing by either party 120 days in advance of the end of the contract year. This memorandum requests that the IGU Board approve the General Manager to execute the agreement valued at approximately \$7.5M for the initial three-year term.

This scope of work was competitively bid. Bids were received from four transportation companies. The work includes transportation of LNG in trailers owned by Titan Alaska LNG from the Titan LNG plant, located near Point MacKenzie, AK to several LNG storage sites in Fairbanks, Talkeetna, and Big Lake. Concurrently, the transportation contractor will lease two LNG trucks from Titan for exclusive use in the transportation of LNG. Payment terms are based on delivered loads to each location with adjustment for diesel fuel costs that vary outside a range of \$3.25 to \$3.50 per gallon.

BSL provided the most competitive rates that forecast approximately 7.5% savings over current rates, based on an assumed estimate of LNG deliveries over the three-year period. Additionally, BSL is already trained and familiar with the work, given they are the currently contracted entity.

It is recommended that the IGU Board authorize the General Manager to execute a Three-Year (with possible additional 1-year extensions) LNG Transportation Services Agreement with Big State Logistics Inc.

UNFINISHED BUSINESS

June 4, 2019

TO: Board Members, Interior Alaska Natural Gas Utility (IGU)

Through: Pamela Throop, Chair

FROM: Dan Britton, General Manager, Interior Alaska Natural Gas Utility (IGU)

SUBJECT: Recommended IGU Fiscal Year 2020 Budget

BACKGROUND

Fairbanks North Star Borough (FNSB) ORDINANCE NO. 2012-52 created the formation of IGU and established Title 11 Natural Gas Utility under the FNSB Code of Ordinances. Chapter 11.01.030 (E) of Title 11 directed the IGU Board of Directors to provide a separate capital and operating budget. IGU management has prepared this proposed Fiscal Year 2020 budget for IGU and its wholly owned operating gas utility company Pentex Alaska Natural Gas Company, LLC's (Pentex) and its operating units: Fairbanks Natural Gas, LLC (FNG), Titan Alaska LNG, LLC (Titan), Arctic Energy Transportation, LLC (AET), and non-operating unit Polar LNG, LLC (Polar).

RECOMMENDATIONS

The proposed Pentex budget and rates reflect projected environmental and economic conditions for Fiscal Year 2020. IGU's General Manager recommends that the Board:

1. Approve IGU's FY 20 budget from July 1, 2019 to June 30, 2020

SUMMARY AND CONCLUSIONS

The fiscal year 2020 IGU budget, based on reasonable assumptions, maintains fiscal prudence and financial capacity despite entering an expansion transitional phase. The statement of net position and statement of cash flows are included, representing the budgeted statement of revenues, expenditures and change in net position.

Key highlights of the proposed fiscal year 2020 IGU budget include:

- Roughly \$859 thousand earnings before interest, taxes, depreciation and amortization (EBITDA).
- The net operating loss of \$1.366 million is driven by the amortization of the gas plant acquisition adjustment.
- The decrease in cash is largely due to the acquisition of LNG inventory in preparation of additional demand as a result of the addition of new services during the fiscal year.
- No proposed rate increases to the customer volumetric or monthly fixed charge.

- LNG Inventory increase of 174,765 Mcf/2.1 million gallons LNG.
- \$386,590 of planned operational capital expenditures in FNG and Titan.
- \$21,496,528 of planned capital expenditures related to FNG storage facility, North Pole storage facility, Titan II and III FEED (65%), and new customer services.

The table below summarizes key projected results of the fiscal year 2020 IGU budget:

Summary FY 20 Budgeted Financial Results	<u>IGU</u>	<u>Adjustments</u>	<u>IGU</u>	<u>FNG</u>	<u>Titan</u>	<u>AET</u>	<u>Polar</u>
Net operating income	(\$1,368,717)	(\$1,356,453)	(\$401,263)	\$36,823	\$500,367	(\$147,975)	(\$216)

IEP POLICY FOUNDATION

The Fiscal Year 2020 budget is based on several policy objectives:

- Maintain existing competent and efficient operations of the FNG utility and the Titan LNG plant
- Maintain eliminated overhead, tax, regulatory, return and other costs related to private corporate ownership
- Maintain lowest rates possible to consumers while maintaining financial health of utility
- Support potential for system expansion, customer conversion and new construction assistance when supply is available

KEY ASSUMPTIONS AND ESTIMATES

Certain key assumptions and estimates are central to the development of the IGU budget:

- Demand / Revenues
 - Weather conditions consistent with recent experience "heating degree days" based on long term averages with the expectation that this winter will be more similar to historic winters
 - Overall demand (total Mcf of gas sold/consumed) is expected to increase slightly due to increased demand from interruptible customers
 - Expected slight increase in demand from residential firm customers due to updated regression analysis on the rate class
 - Expected decrease in demand from small commercial firm customers due to updated regression analysis on the rate class
 - Expected decrease in demand from large commercial customers due to updated historical average usage model.
 - The increased demand from interruptible customers puts downward pressure on the average sales price per Mcf even though we expect a slight increase of 1.4% in large interruptible rates

Expenses

- \$1,356,453 amortization of the gas plant acquisition adjustment
- The operation of the new storage facility in Fairbanks will increase the demand for and cost of electricity for storage site operations
- Conduct targeted capital renewal and maintenance at the Titan plant and in the FNG storage, re-gas and distribution system

Inventory

- o LNG Inventory increase of 2.1 million gallons LNG/174,765 Mcf.
- Pipes, material and supplies inventory increase of \$750 thousand In preparation of 400 new customer additions consisting of residential and commercial services located in both Fairbanks and North Pole.

FNG FISCAL YEAR 2020 RATES

FNG monthly firm customer charges and volumetric charges will not increase for Fiscal Year 2020. The table below summarizes FNG's projected rates and sales by customer class for Fiscal Year 2020.

	ric Charges

OTHER BUSINESS

Meeting Date: June 4, 2019

1 Interior Gas Utility
2 BOARD MEMORANDUM
3 No. 2019-10

From:

General Manager, IGU

Subject:

Recommendation for Amendment Three (3) to PDC Engineers for Professional Services for Design of the LNG Storage Facility Project in the

North Pole Alaska (\$ 126,414.00)

The Interior Alaska Natural Gas Utility (IGU) has participated in the planning and consideration for development of storage and regasification of liquid natural gas (LNG) in the North Pole, Alaska area since the formation of IGU and with the planning efforts by the Alaska Industrial Development & Export Authority under the Interior Energy Project.

Since, IGU and GVEA coordinated planning for use of GVEA lands in North Pole and on June 29, 2018 entered into a Real Estate Purchase and Sale Agreement (PSA) and an Option to Purchase and Early Entry Agreement (reference Board Memorandum No. 2018-05). These agreements include Lot 1 and a 13.46-acre parcel on the northerly end of Lot 2 H&H Industrial Subdivision. IGU has completed a Phase 1 Environmental Site Assessment through Travis-Peterson that resulted in no recognized environmental conditions that would compromise the development of the property of the intended use.

IGU contracted with PDC Engineers to complete a conceptual LNG storage plan for the GVEA site (BM 2018-3), followed by the final design of the LNG Storage Facility Project as authorized by the Board (BM 2018-09). IGU's intent has been to move rapidly along with the development of an LNG storage facility in the North Pole area with the desire for having an operable facility prior to the end of 2019. In order to accomplish this, every phase of the project and construction activities were understood to be on a critical path and fraught with risk. The final design was completed within the time frame allocated and issued open competitively for bid proposals on February 17, 2019. Two bid proposals were received on March 21, 2019. Both bid proposals were extensively reviewed for qualifications and cost. After interviews and receipt of best and final offers it was evident that the bids received significantly exceeded the funds authorized for the project and a determination was made to cancel the solicitation in accordance with IGU Procurement Manual as guided under IGU Policy No. 06 Procurement. Notice of the cancellation was issued to the two proposers as well as posted on the IGU Website. Based on the IGU procurement manual and policy, all bid proposal information is in the process of being returned to the proposers and/or properly disposed of. Since the solicitation has been cancelled, this information including the proposers is considered confidential and not available for public disclosure.

It is IGU's desire and intent to continue to move the North Pole LNG Storage Facility Project forward. A plan has been developed that modifies the initial phase of the design for construction that will result in a more reasonable cost, without necessarily diverting from the overall proposed long-term site planning goal. Aside from reducing scope and reassessing some of the components, the general conditions for the project are to be realigned to create a more favorable competitive bidding environment for local contractors. This would include an extension of the construction schedule well into 2020 as well as making liquidated damage limits less onerous. In order to accomplish this objective, an amendment to the design contract with PDC Engineers is necessary.

1 2 Based on the foregoing, IGU requested a proposal from PDC Engineers for revising the design 3 documents and to more ardently ground truth the construction cost estimating task. Additionally, the 4 proposal includes support during the rebidding phase to assist with responding to questions, authoring 5 any required addenda, assist in facilitating a pre-bid conference, and participating in bid proposal 6 reviews and recommendations for a contract award. 7 8 9 Status of PDC Engineers Contract: 10 Original Contract (Conceptual Planning) authorized April 2018 \$ 91,832.00 11 Amendment 01 (Final Design) authorized September 4, 2018 \$ 620,086.00 12 Amendment 02 (Bid Phase Support) February 15, 2019 (1) \$ 48,540.00 13 Amendment 03 (this Board Memorandum) \$ 126,414.00 14 Revised Contract Total Not to Exceed \$ 886,872.00 15 (1) Authorized under the project budget authorization Board Resolution 2019-02. 16 17 It is recommended that the IGU Board concur with the contract Amendment Three (3) to PDC 18 Engineers in the amount of \$ 126,414.00 for a revised contract total not to exceed of \$ 886,872.00. 19 20 Prepared by: Bruce Robson, Project Manager 21 22 Submitted by: Dan Britton, General Manager 23 24 Approved: 25 26 27 Date Pamela Throop 28 Chair, IGU Board of Directors 29

IGU ACTION ITEM LIST

Item	Action	Responsible Person	Date Initiated	Due Date	Status	Notes
1	APGA Board Membership Inquiry	Laura Steel	5/7/2019		Completed	
2	Liquifaction Project Manager Approach	Dan Britton & Mark Rockwell	3/12/2019	5/21/19	Completed	
3	GM Employment Review	IGU Board			Bylaw FNSB vote 6/13/2019	
4	Global Plan going forward with the Utility, Update Capital Plan and Proforma	Dan Britton & Brown Thornton & Wesley Smith		6/4/19	Draft presented 5/21/19	
5	Confirmation of Mat-Su Permitting - part of FEED work	Dan Britton	2/5/2019		Have permit list	
6	Plan going forward on Identifying gas suppliers and Negotiating price and terms (Current Gas supply Contract Ends May 2021)	Dan Britton		8/31/19	Rene drafting limited solicitation	
7	IGU Policy 09 Relationship Between the IGU Board of Directors and the General Manager	IGU Board	9/4/2018		Tabled on 9/4/18	
8	IGU Policy 10 Delegation of Authority by the IGU Board of Directors to the General Manager	IGU Board	9/4/2018		Tabled on 9/4/18	
9	Political versus Legal View for North Slope Pad Return on Investment	IGU Attorney & Dan Britton	1/22/2019	5/14/19

20	Duties and Powers of the IGU Board of Directors Chair	IGU Board	4/23/2019	6/30/19		
21	Alternatives for North Pole Storage	Dan Britton	4/23/2019	8/31/19		
22	Transportation Study Update	Madam Chair				

General Manager Report – For the month of May 2019

IBEW Update

- Four negotiating sessions were held with IBEW regarding the collective bargaining agreement for FNG/IGU operators. Additional sessions have been scheduled for June.
- The parties continue to make progress towards advancing an agreement.

Financial / Accounting

- April Financials reviewed by the Finance Committee on May 28, 2019. The Finance Committee recommended Board acceptance of the financials as presented.
- Fiscal Year 2020 Budget prepared and presented for review by the Finance Committee and Board of Directors. Scheduled for Board Approval on June 4, 2019.
- IGU and Pentex financial integration ongoing.
- Preliminary meetings with the Financial Advisor held. RFP's for Borrower and Disclosure Counsel, and Underwriter being developed.
- IGU Financial Policies in development for approval by the Board of Directors.
- Continued working with AIDEA, Local Banks and the FNSB on short term loan requests.

Legislative Update

See attached IGU Legislative Update

Operations

Titan

- Titan produced 100% of the required LNG for FNG and its other customers, without interruption.
- Zero Lost Time Injuries, Zero Vehicle Accidents.
- Zero Third Party Damage.
- Four Bid's Received in response to RFP for LNG Transportation Services. A notice of intent to award has been issued to Big State Logistics, pending IGU Board Approval.

FNG

- 100% delivery reliability with no supply interruptions. Inventories were maintained above five (5) days.
- Zero Lost Time Injuries, Zero Vehicle Accidents.
- Zero Third Party Damage.

IGU

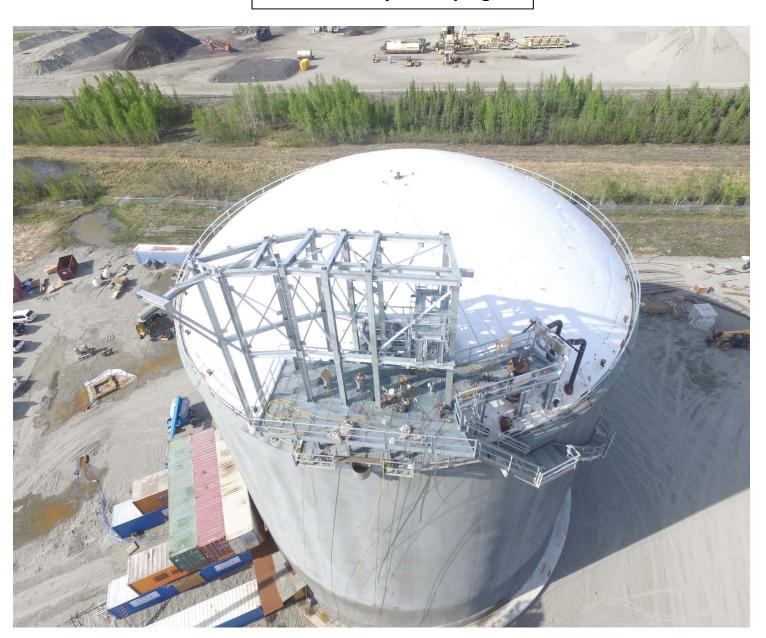

- Distribution System intact with no recorded pressure loss.
- Zero Third Party Damage.
- Developing options for relocating pressure monitoring system before July 1, 2019.

Capital Projects

5.25 MM Gallon Storage Project

- Inner Tank work completed.
- Tank Hydro Test and Pneumatic Test complete with zero detected leaks.
- Balance of Plant Phase 4 contract work progressing, Boil-Off gas compressor building construction started, and mechanical and electrical work in multi-purpose building underway.
- Final platform and crane rail structure installation complete.
- Final outer tank closure in process.

Crane Trolley and Piping

Inner Tank Hydro Test in Progress

Boil-Off Gas Compressor Building

Multi-Purpose Building – Staging and Electrical

North Pole Storage

- Initial Bid cancelled.
- Value Engineering Proposal Submitted for Board Approval

Titan Expansion

- Liquefaction and Pretreatment RFP issued 4/15/2019 and posted on IGU website.
- Storage Tank, Transport Loading Facility and Power Generation RFP's issued.
- Bid evaluations scheduled early in June

Re: Legislative update

Dear Dan,

After 51 days awaiting action in the House Finance Committee, a new committee substitute for HB87 was released providing for a 12-month sunset extension and a \$5 million cap on tax credit/payments for LNG storage facilities. The bill's passage from that committee on May 11 left us with four days in which to move the bill through multiple procedural votes on the House Floor, the Senate Finance Committee and Senate Floor. While we garnered 40 "Yeas" and zero "Nays" in the final House vote for HB87 on May 14, the Senate was unwilling to re-open their Finance Committee for consideration of the bill on the final day of the regular session (May 15). Our subsequent effort to get HB87 added to the Special Session "call" met with resistance, and so HB87 will remain in the possession of the Senate Finance Committee until January 2019 when the bill could come back for consideration with a retroactive effective date.

The Legislature has now reached the midpoint of its (first) 2019 special session - this latest adjournment deadline is June 14th. Earlier this week, the Senate approved the conference committee report for the widely supported omnibus crime bill and, along with the House, can now mark one of five items off of its special session to-do list. There has also been much discussion over last year's forward funding for K-12 education, the payments for which are typically sent out to districts beginning in mid-July each year. Leadership members from both the House and Senate got together Tuesday for a rare, joint press conference to announce the Legislature's preparation for bringing a lawsuit against the Administration if funds are not remitted on time. It is likely the courts will be called in to decide this separation of powers issue; it is equally likely the Administration and Legislature will find a way to avoid disrupting the start of the next school year while the legal process plays out.

Our crystal ball suggests the Legislature could complete its work on the FY20 operating budget by the end of this (first) special session. However, a deal on the 2019 Permanent Fund Dividend is unlikely to be part of the operating budget package. Rather, it is likely the Governor will need call a second special session to address the PFD issue and, possibly, the FY20 capital budget. Incidentally, there remains a possibility LNG storage tax credtis/payments relating to the North Pole project could be addressed through the still "open" capital budget in lieu of passage of HB87.

Also, the members of the Interior Delegation recently expressed an interest in touring the IGU's LNG storage facility projects, which we will make arrangements for pending their availability.

I am available to discuss at your convenience.

- R.May

Kind Regards,

Yuri Morgan

MEMORANDUM

TO: IGU Board

FROM: A. Rene Broker

SUBJECT: Summary of Activity

DATE: May 29, 2019

Over the last month we have been engaged on the following issues:

- 1. Drafting revised ethics policies for Directors and Employees.
- 2. Attend IBEW contract negotiations.
- 3. Drafting of Gas Negotiator Solicitation; Review of other draft RFP's re: Borrower/Disclosure Counsel and Underwriting Services.
 - 4. AIDEA/LOC approval questions and related issues from Borough Attorney.
- 5. Meeting with IGU's Financial advisor/AIDEA's bond counsel and review of follow-up questions to AIDEA drafted by IGU's Financial advisor.
- 6. Ongoing interaction with Chairman Throop and General Manager Britton regarding the above issues, public record and open meeting issues, bid issues and other issues that are raised on a day-to-day basis.
 - 7. Attend Board meetings.
